OFFICE PRINTING EQUIPMENT • MANAGED PRINT SERVICES • SOFTWARE SOLUTIONS • REPAIR • SERVICES

CESCO is an expert award winning printing equipment and software solution provider representing Xerox, Lexmark, Hewlett Packard, Brother, Epson, and Maker Bot in multifunctional devices, printers, copiers, scanners plotters, 3D printers and Y Soft Software. The company carries OEM and re-engineered toner supplies for all equipment.

The company **specializes** in Managed Document Services which include Managed Print, Mobile Print, Secure Follow Me Print and Digitized Workflow Solutions. **All designed to assist with decreasing operational costs in document print and the creation of a sustainable print less strategy.**

Other technology products are HP computers, laptops, tablets, servers, peripherals and other technology products.

### Core Competencies / Differentiators

**Innovative Technologies**—The multifunctional devices and printers/copiers offer many choices in software automation. The tech interface is more like an iPad or iPhone. A good example of the innovative technology is the software on the Xerox Select Key that will translate over 40 different languages in 3 seconds after each selection. When the software technology is utilized properly there is a significant cost savings in time, energy, supplies, technical assistance and service cost.
